Formulas exercise

Me, myself and I

May 3, 2024

Formulas and mathematical notation

$$E = mc^2$$

$$2x - 6 = 8$$
$$2x = 8 + 6$$
$$x = \frac{8 + 6}{2}$$
$$x = 7$$

$$3H_2\,+\,N_2\,\rightarrow\,2NH_3$$

$$R = \frac{L}{\sigma A} = \frac{\rho L}{A} \tag{1}$$

Equation 1 describes electrical resistance. The symbol σ is called sigma, ρ is called rho.

 $\mathbb N$ denotes the set of natural numbers. Therefore, $\mathbb N=\{1,2,3,\dots,\infty\}$
